

FRESH AIR PERSONAL

The FreshAir Personal provides nature's own powerful cleaning properties with a built-in ionizer that attracts free-roaming particles and captures them, reducing allergens and pollutants that invade the space you breathe.

WHAT ARE THE BENEFITS?

- Can be worn around the neck or stand alone
- Utilizes the process of ionization to provide clean air by creating positively-charged ions to remove microscopic particles from the air
- On/off switch to preserve battery usage
- Requires no fans, filters or maintenance
- Lightweight, easy to use and rechargeable
- Features a universal neck strap and built-in clip for hanging it on a collar

HOW THE FRESHAIR PERSONAL WORKS

The FreshAir Personal creates an almost particle-free zone around the wearer by generating high intensity ion streams that add charges to nearby airborne particles. These charged particles repel each other and adhere to surfaces out of your breathing zone. This means substantially decreased concentrations of allergens, smoke, dust, and pollen in the air you breathe.

FEATURES

- Freshens personal air space wherever you go
- Reduces airborne contaminants and allergens
- Designed and engineered to be so simple to use that it encourages daily usage

FRESHAIR PERSONAL IS PERFECT FOR:

- People with allergies or asthma
- Those that walk or bike to work
- Individuals with compromised immune systems
- Anyone that wants to breathe in cleaner air wherever they go
- Frequent travelers
